

The Music Conspiracy- The Frequency Change from 432hz to 440hz

432hz

440hz

The music conspiracy is not often talked about in alternative media yet is quite possibly much more important than we give it credit for.

We know that everything is vibration and how as humans we are heavily influenced by sound, and in particular music. Musical frequencies have the ability to either raise or lower our vibrations which affects our mood, our connections with others around us, and our ability to raise our consciousness. The music conspiracy goes much deeper than distorted sounds.

What better way then to keep humanity scraping the vibrational barrel than to meddle with the very frequencies of music? In the 1930s the Rothchilds and other so-called 'elite' families of the World decided to weaponise music. The healing and peaceful standard vibrational frequency was taken away and replaced by the 440 frequency. Using this ensured that we became conduits for negative distorted energy.

Music at 432hz has a light, natural, healing feel to it. It has a feel-good factor, and lift your mood. It makes you feel alive. At 440hz we are pulled down into a dark vibrational frequency which is where the 'powers that shouldn't be' want to keep us. Everything is done to keep us in a low vibration which is why we live in a World of perpetual War and suffering. They feed from our fear and negativity so what better way than to infuse negativity into music?

Just listen to some of the trash that is classed as 'music' these days. Most of it is absolute garbage which literally causes a lot of discomfort to my ears on a personal level. You can just feel the evil undertones. Much of it is now completely sexualised with promotion of violence and materialism. There is nothing peaceful or healing about it.
